

Women Of The Woodlands OB Interview

In order to assure that you receive the most appropriate care, we require an ob interview on all transfer or late prenatal obstetrical patients. This allows us to review your medical records, reasons for your transfer, and to determine if we are able to accept your care. There are reasons why we would not be able to accept your care. These include but are not limited to, non-compliance of medical care, high risk pregnancy, and overwhelming number of deliveries in your delivery month. Please take a moment to answer the following questions to better help us interview you.

What is your reason for transfer or late prenatal care?

If you have had a previous cesarean, do you want a VBAC (vaginal birth after cesarean)? If so, please be aware that we do not perform this type of delivery.

Any drug, alcohol or tobacco use during this pregnancy?

Do you have any specific birth plans?

When was the first day of your last menstrual period?
